EDUCATION

Vishwakarma Government Engineering College, Chandkheda

Bachelor of Engineering in Computer Engineering (CGPA - 9.20)

2020 - 2024

Ahmedabad, India

EXPERIENCE

FREELANCE

Freelance Full-Stack Developer

July 2024 - Present

Remote / Worldwide

- Developed custom full-stack web applications and REST APIs using React, Angular, Node.js, .NET, and PostgreSQL.
- Designed and implemented robust database schemas, index tuning, and optimized queries with SQL Server, PostgreSQL, and MongoDB.
- Created responsive design systems, interactive user interfaces, and optimized Core Web Vitals performance.

IBM

Software Engineering Intern

Jan 2024 - June 2024

Remote

- Engineered modular enterprise web components and user interfaces using React and modern web standards.
- Integrated backend REST API services, optimizing database connection and frontend data fetching performance.
- Collaborated in agile software development life cycles (SDLC), unit testing, code reviews, and system integration.

PROJECTS

RESTAURANT MANAGEMENT | ASP.NET MVC | C# | .NET | PostgreSQL | EF Core | LINQ

June 24 - July 24

- Developed Restaurant Management System with dynamic Role-Based Access Control (RBAC) using ASP.NET MVC and PostgreSQL.
- Implemented an optimized table-merging algorithm for receptionist check-in and table allocation to seat larger groups efficiently.
- Engineered a dedicated Kitchen Order Ticket (KOT) dashboard for real-time preparation tracking, item status updates, and chef workflows.
- Utilized Entity Framework and LINQ queries for efficient database interactions, dynamic billing, and tax calculations.

REPORT BUILDER | Angular 18 | C# | .NET | Dapper | SQL Server | PostgreSQL | Kendo UI

April 24 - May 24

- Developed a multi-tenant Dynamic Report Builder using Angular, C#, ASP.NET Web API, and Dapper for runtime metadata queries.
- Enabled non-technical enterprise users to visually configure database tables, joins (Inner/Left/Right), sorting, filtering, and aggregations.
- Designed an interactive Kendo UI data grid supporting high-performance client-side operations and instant Excel exports.
- Built secure database-agnostic schema discovery across SQL Server, PostgreSQL, and Oracle with tenant-isolated security.

RECRUITMENT MANAGEMENT | Angular 18 | ASP.NET Web API | .NET 8 | PostgreSQL | SignalR | Azure

Jan 24 - March 24

- Engineered an enterprise-grade Recruitment & Immigration Management System using Angular 18, C#, and ASP.NET Web API.
- Designed candidate profile workflows with background checks, secure document uploads to Azure Blob Storage, and POEA/DMW compliance.
- Integrated SignalR for real-time interview scheduling status updates and Azure Service Bus for notification queues.
- Implemented Clean Architecture with Yarp.ReverseProxy API gateway and automated PostgreSQL migrations using DbUp.

EVENT MANAGEMENT | Angular 21 | C# | .NET | ASP.NET Web API | SQL Server | Kendo UI | CQRS/DDD | Azure

Oct 23 - Dec 23

- Streamlines the complete event planning lifecycle from client onboarding and inquiry conversion to sub-event management and warehouse product allocations.
- Developed client contact components featuring server-side pagination, sorting, and grouping using reusable Angular components.
- Designed a hierarchical rate card engine supporting labor charges, service costs, client-specific discounts, and tree-structured pricing.
- Implemented RESTful APIs with CQRS and Domain-Driven Design (DDD) architecture using Entity Framework Core and Azure Blob Storage.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), C#, SQL, HTML5, CSS3, TypeScript, C, C++

Frameworks/Libraries: React, Angular, Node.js, Express.js, ASP.NET MVC, ASP.NET Web API, Entity Framework Core

Databases: PostgreSQL, SQL Server, MongoDB, Oracle

Tools: Git, GitHub, Azure Blob Storage, Azure Service Bus, Yarp.ReverseProxy, SignalR, DbUp, Netlify, Vercel, Hostinger

Core Concepts: OOPs, REST APIs, CQRS, Database Design, Agile (Scrum)

SOFT SKILLS

Interpersonal: Team Collaboration, Effective Communication, Relationship Building

Problem Solving: Critical Thinking, Analytical Reasoning, Decision Making

Self-Management: Adaptability, Time Management, Task Prioritization
